DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 20-54 have been considered but are moot in view of the new ground(s) of rejection.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 29-35 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 13, 21, and 29 of copending Application No. 10,127,945. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed "one-time use camera" is met by the *camera* of claims 13 and 29 of app. '945; the claimed "image capture unit" is met by the *image capture system* of claims 13 and 29 of app. '945; the claimed "first circuit board" is met by the *first circuit board* and *first electronic circuit* of

Art Unit: 2851

claims 13 and 29 of app. '945; the claimed "second circuit board" is met by the *second circuit board* of claim 13, 21, and 29 of app. '945; the claimed "camera frame joined to the first circuit board" is met by the *frame jointed to a first circuit board* of claims 13 and 29 of app. '945; the claimed "cover" is met by the *cover* of claims 13 and 29 of app. '945.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

Claims 20-28 and 36-54 are allowed.
